

IT497 Group Assignment #2

This is a group assignment

As a group, you will create a 5---page summary of the 4 journals you have been assigned.

To help you understand each journal better, your team will read/skim 3 articles from each journal (you may choose articles). It is best if the articles are all from the same timeframe. It would be best if the articles are at least 2 years old.

Your summary should include:

1. (not part of the 5 page summary) a list of the articles read – in APA format.
2. Write a description of each journal – you may want to gather information for this section from the journals webpage. Describe each journal's mission, and the types of articles they publish. You will also want to note the start date of the journal, how many times they publish each year and the number of articles in the last few issues.
3. Compare and contrast the 4 journals you have been assigned.
 - 3.a. Discuss the quality of the journals. How did you measure quality? Impact factor? Rankings? Or something else?
 - 3.b. Discuss the authors publishing in each journal. Where are they from? Where do they work?
 - 3.c. What are your impressions of the writing found in each journal?
 - 3.d. Who are the readers of each journal? Are they academics? Students? Practitioners?
4. For each journal, go to Google Scholar and find the number of citations for the three articles. What does this tell you about the quality of the journals and the numbers of readers?
5. The group contract. This must be **one contract** that all members have read and agreed to support. Only one contract per group.

Include each team members name and the sections they contributed. Submit the assignment via ReggieNet.

JOURNAL LIST

1. MIS QUARTERLY
2. MIT SLOAN MANAGEMENT REVIEW
3. JOURNAL OF THE AIS
4. JOURNAL OF STRATEGIC INFORMATION SYSTEMS
5. COMMUNICATIONS OF THE ACM
6. INFORMATION AND KNOWLEDGE MANAGEMENT
